

## Join Today: Find Skin Lighteners That Work!

Treating skin pigment issues and lightening your natural skin color are not difficult...IF you know what to look for.

We provide you with all the important information about skin lightening.

Most skin care companies want you to pay attention to their claims, rather than actual results and effectiveness of their products.

We do not want you to waste anymore money buying skin lightening products that do nothing or worse - make your skin even darker.

Did You Know...

- 90% of skin lighteners don't work on every skin type
- 87% of skin lighteners do not work at all
- 13% of skin lighteners actually work

Skin Care Manufacturers want you to try all their products by "trial and error" and they DO NOT want you to find a product that works.

Why?

...Because then they will make less money and their share holders will not be happy. Skin Lightening Manufacturers Would Lose Money If You Knew What They Know!

Let me tell you this...

Before you buy any skin lightener, whitener, or brightener you need to Sign Up and find out if they ACTUALLY work. You will save a lot of heartache and save a ton of money!

There is no reason that consumers should be taken advantage of by these big companies.

### Janelle's Story

Janelle is one of our publishers, graduate of Chemistry from Ryerson University

This is something I am very passionate about. I grew up with 2 sisters that had "perfect" skin, and my mother made sure that I knew that.

I guess I was labeled the "ugly duckling" of the bunch. It is hard enough that when you go out in public you are faced with so many people that don't suffer from discoloration and acne scars, but to go home and face that reality again is even harder. I Was Very Unhappy With My Dark Uneven Skin!

It hurt so much inside, and I always wondered why I was so unlucky. I suffered from discoloration everywhere, and I mean EVERYWHERE. My face was very uneven, I had acne scars, my chest had dark spots (from acne), my back was uneven, my legs had dark spots, and my booty was uneven and had dark spots and stretch marks....oh my god. I would never wear a bathing suit....or shorts....or a dress because of my skin discoloration.

I was ready to give up, I had spent thousands of dollars on every skin lightening product out there. I had so many bottles and jars of empty skin lightening creams at home. It was very embarrassing to have to keep it all hidden from my family.

I think the skin lightening manufacturers knew who I was by name. The hardest part was at the end of 2-3 months, I wouldn't see any results from these products. I would get so upset at myself for wasting more money.

But then I was online looking for more skin whiteners. It was an addiction.

I had to find SOMETHING that worked. I read hundreds of testimonials but they were all contradicting themselves.

Some people would say Product#1 worked to lighten their skin, then another person would say Product#1 did nothing to lighten their skin.

Then I came across WomenInquire.com and sent them an email telling them of my story and what I had gone through. They thought it was important for others to know that they are not alone in this battle.

Now I want to share all that I have learned about skin lightening products I have used. You have nothing to lose by joining and EVERYTHING to gain.

Think About How Much Time You Waste Searching For Skin Lighteners Online!

Lets say that you spent 2 hours a day looking for skin lightening information, reviews, testimonials and the best prices. Now 2 hours a day may not seem like much, but that is 14 hours a week and 56 hours a month.

Now lets say that you make \$8 an hour, that would mean that you have lost \$448 a month search online for skin lightening products!

That is a lot of money. However, if you make more than \$8 an hour at your current job then the cost of search will go up.

- Are you going to keep wasting money and time while getting nothing in return?
- Do you want to keep buying products that will never work?
- Should you stay unhappy for the next months or years?

Well we don't want you to answer yes to any of those questions. We know that you can find something that works, and we will provide you with all the information you need.

Why Should You Pay for Membership?

Women Inquire, Inc. will help people who are serious about finding the truth about products. We are testing skin lighteners and keeping track of our patients results, this costs money of course and that is why there is a membership fee.

We have provided a free trial period from January 2008 - March 2008 to everyone who visited WomenInquire.com Just check out the testimonials sections to find out what our current members think.

For a small investment, you will save yourself hours of time searching online (which has false information) and hundreds of dollars a month in products that don't work.

We encourage you to look for another website that can offer as much as we do - we know you will not find one. We have done the most extensive research, and put it all together in a neat well organized fashion.

Because membership is paid, everyone who joins is serious about skin lightening and will contribute their knowledge while learning from others. Our community offers a safe and relaxing atmosphere for everyone to discuss their deepest thoughts and feelings as well as laugh and joke about past experiences.

- No one will judge you
- Everyone is real - no spammers!
- View pictures of their progress
- Relate to similar experiences

- Natural skin lighteners VS Hydroquinone
- Are Hydroquinone-free products better
- What are alternatives to bleaching creams

.....And

Weekly questions and answers from Janelle (Ask The Expert) about the best skin lighteners, the worst and all other questions you may ask her.

All this information would probably be worth \$50-100 dollars a month in membership fees.

But guess what?

You wont pay \$50-\$100, you wont even pay \$40....membership for 1 month will only be \$29.95\* and 3 months membership is only \$39.95

That is less than \$0.99 cents per day!

That would not even buy you a cup of coffee! Take advantage of this very low membership price because it won't last. We are giving you the opportunity that no one else can.
