Amazing Results!!!

I am an african american woman who has been suffering from hyperpigmentation almost all my adult life. It is so frustrating to keep buying products that just dont work as they promise. I came across WomenInquire.com when I was searching desperately for another product to try and lighten my skin.

I was a little skeptical about paying for membership so I did not sign up right away, I read the "why join us?" article probably 15 times before I finally decided to join.

It was the best decision I have EVER made! Not only did I get my monies worth, but so much knowledge was gained. I have been using this product for almost 2 months and I am still shocked every morning in the mirror at how light I have become. I love my skin tone so much now! I feel confident and sexy because my skin is now even and glowing!

If I had not read the articles on products to avoid, I probably would have tried them with terrifying results. I just wanted to thank you so much for this guidance.

This website is a life saver!

I was searching for weeks on what skin lighteners worked the fastest and since I signed up it only takes a minute to get ratings, ingredients, and real results. I now am using a great product and have seen good results.

I no longer feel ashamed of my obsession for lighter skin because there are so many people who are on this website that want the same thing! There has been so much great support and everyone keeps me motivated to stick with it until I get the skin tone that I want. I just wanted to thank you for creating this great resource and making it available to me.

Dont waste your money anymore...

I know how it is to look for something that actually works and being disappointed again and again. I was there, I spent every paycheck on new products because nothing seemed to work.

Skin lightening seems to be something that you can't really ask friends and family about because of the negativity that comes with it.

This place gives you a place to share, express, and vent your feelings. The product reviews are very honest and I have saved money by not buying products that were rated poorly. I'm on my way to clear, healthy, even skin tone!

Impressive amount of information!

I was searching for skin lighteners to help even out my skin tone. I am a brown skinned sista (like kelly rowland) and I suffer from acne, but what i hate more is the dark spots left after acne has healed.

You get so much information and resources when you join WI.com and the support is extremely helpful. Any questions I had were answered immediately in the message boards. I have been using one of the best skin lighteners for 2 weeks and it is by far the best thing for my skin!

The results have been wonderful, my boyfriend noticed that my skin was clear of imperfections that he sometimes thinks Im wearing makeup when IM NOT! This is all that I could ask for, I am so much happier now that I smile more and I am

rarely jealous of other girls because Im one of the pretty ones now! :)

I Got So Much Support! Thank You!

I first joined thinking that this would be a website that provides just information about skin lightening products that work. But I was totally blown away by how much information, support, and resources there are!

No other website puts it all together so smoothly. I never will have to search for what I am looking for. If I want to know the latest skin bleaching creams out there, I log in and find out. The staff at WomenInquire.com are SO helpful. They are friendly and will answer queries very quickly.

The other members are wonderful, and know exactly what I was going through with my skin issues. No one here judges you on what you want and that is what matters.

Thank you for this website, I truly am lucky to have found somewhere I can feel safe to discuss my deepest desires and hopes!

I Swear By This Website!!!

Ok so I joined with my sister (sharing this account) and we are really happy we did because it gives us so much information about skin lightening products we didn't even know about.

The articles are also great, I like reading about what celebs are using to lighten their skin. You won't find this kind of info anywhere else ladies! I only paid \$9.95 and it was well worth it, I mean, I have seen results so quickly because I am using the right products together.

The women on this website are really cool too, they know exactly what Im going through and can relate. I have lightened my complexion atleast 2 shades and want to continue lightening until i reach 3 shades lighter :) I love my new skin tone!

I'm Glad I Joined!

I came to this website December 2007 and bookmarked it because I wasn't sure if I should join. After a week later I was frustrated that the skin lightening cream I had bought from Walmart wasn't fading my acne scars. I was so very depressed and did not want to leave the house during day light hours.

While searching for skin lightening reviews, I came across this website again so this time I had to join! The price was discounted to \$9.95 which isn't even that much. Once I joined, everything I was looking for was right here!

Thank you for putting all this information in one place, I am now using this skin lightener because it passed your tests and works. I have already noticed huge improvement on old dark spots, they are actually fading away!

God bless you all!

More Than I Expected.

The free trial period was great and basically showed me what I was missing out on. I thought I knew everything about skin lighteners before I joined, I was so wrong!

Janelle (Ask The Expert) is fabulous and she answers my questions the same day, anything I ask, she has an answer for. I also love the audio versions of her lectures.

You guys keep me updated on the latest skin lightening products, and the reviews are REALLY helpful. Thank you for the honest and reliable reviews of the products, I would have lost a lot of money with no results.

Thanks For All Your Help!

I have been a happy member for a while now and I just wanted to thank you for all your help. No matter how crazy my questions are you guys help me through it and understand how to lighten my skin.

So far I have learned more than I ever could imagine on how to lighten and even my skin tone. The other members are like my family members and we help each other get through tough times. This is the best website/community I have joined.

Keep up the great work on the articles and helpful reviews. I also heard that you guys will start making effective skin lighteners for your members? Is this true because that would really be great :)

Thanks again,
